I'm Julian, a midfielder with strong technical skills, including precise passing and excellent ball control. I excel at reading the game, making quick decisions, and communicating effectively with my teammates. My work ethic, endurance, and ability to stay balanced under pressure help me maintain a high level of play throughout the game. As a team player with a passion for soccer, I'm always looking to improve and push myself to be better. I'm excited to continue developing my skills and bring my energy and leadership to a college program.
